

RESEARCH DAY

ALFRED HEALTH WEEK

AlfredHealth

2018 Keynote Address

“Respect, Responsibility and Making a Difference”

SUSAN ALBERTI AC

Passionate, driven and ambitious, Susan Alberti AC is one of Australia's pre-eminent philanthropists, having donated millions of dollars to medical research and other charitable causes over her successful business career.

Her dedication to raising funds for Type 1 diabetes, driven by the loss of her daughter, Danielle, led to a broader focus on medical research. Susan has received numerous honours for her work and lends her expertise to many Foundations, philanthropic and sporting organisations, including her beloved Western Bulldogs in the AFL.

A trailblazer in many traditionally male-dominated areas, Susan was instrumental in the formation of a national women's football league and is a wonderful role model and mentor to young women.

TUESDAY 19 JUNE 2018

12:00 PM – 1:00 PM

AMREP LECTURE THEATRE

Followed by presentation of the
2017 AMREP Research Prizes

A light lunch will be provided after the presentations
