

Bayside Health Alfred is one of Victoria's premier public hospital networks, featuring one of Australia's busiest emergency centres and the *most active trauma service in Australasia*. Serving Melbourne's greater metropolitan area and providing state-wide specialty care services, Bayside Health Alfred includes ***The Alfred, Caulfield Hospital, Sandringham Hospital and the Melbourne Sexual Health Centre.***

We are home to Victoria's only heart and lung transplant service, the Victorian Adults Burn Service, and the Victorian Melanoma Service – based out of the newly opened Paula Fox Melanoma and Cancer Centre. Alfred Care Group offers 33 diverse and challenging four-month rotations across our three campuses, with opportunities to work remotely in Alice Springs.

Our clinical supervision program pairs Grade 1 physiotherapists with senior professionals to help develop their strengths, address gaps in knowledge, and grow clinical skills across each rotation. Our committed physiotherapy team is dedicated to delivering excellent patient care, supported by experienced team members with a wide range of speciality clinical skills.

In addition to fostering a professional and highly skilled work environment, we host regular social events that promote a fantastic work culture. At Bayside Health Alfred, you'll find great colleagues who support each other, creating a collaborative and friendly atmosphere where everyone can thrive.

Grade 1 End of Rotation celebration Jan 2026
