

## AlfredHealth

Project No.	Project Title
5/16	A study of emergency department utilisation for management of hypoglycaemia
12/16	Predictors of poor bowel preparation at colonoscopy
19/16	A single centre experience and comparison of the retrievable ALN filter, Cook Celect and Cook Platinum vena cava filters
50/16	Management and outcomes of colorectal cancer in the elderly
78/16	30 days alive and out of hospital
80/16	Factors influencing the outcome after Extra-corporeal Membrane Oxygenation - Cardiopulmonary Resuscitation (E-CPR)
84/16	Evaluation of post-discharge pharmacist-only review in a General Medicine ambulatory care setting
86/16	Hypothermia in patients presenting to the emergency departments of two Victorian hospitals, 2010 - 2015: an evaluation of clinical, sociodemographic and environmental factors
89/16	Epidemiology, Management and Outcomes of Traumatic Knee Dislocations (A VOTOR Report)
96/16	Atrial Strain in addition to standard echocardiographic/ clinical risk factors predicts development of atrial fibrillation and strokes in patients with cryptogenic stroke.
97/16	Bacterial load in men who have urethral gonorrhoea
130/16	Change in time from HIV infection to diagnosis over time at MSHC, a comparison of different methods and markers.
135/15	An epidemiological study of rapid sequence intubation in out-of-hospital non-traumatic brain injuries
138/15	A prospective multicentre observational study of aneurysmal subarachnoid haemorrhage in Australasian intensive care PROMOTESAH

## AlfredHealth

138/16	Prioritising Responses Of Nurses To deteriorating patient Observations (PRONTO)
139/16	A single-centre experience of using the Magellan Robotic Catheter System to perform TACE
141/16	Non-small cell lung cancer (NSCLC) patients treated with curative radiotherapy between 2000-2014: Implications for clinical trials and radiotherapy waiting times
142/16	The Effect of Prophylactic Hypothermia on Traumatic Brain Injury Haemorrhage Progression
161/16	Evaluation of Partnered Pharmacist Medication Charting at Admission
165/16	Australian Thoracic and Lumbar Spine (ATLAS) Study: Pilot study
182/16	Management of patients admitted with exacerbation of heart failure under general medicine at the Alfred Hospital 2016
185/16	Renal Transplantation at the Alfred Hospital: A Review of Graft Outcomes
186/16	The associate between coffee consumption and the progression of Non-alcoholic fatty liver disease/Non-alcoholic Steatohepatitis
187/16	A retrospective audit of offloading practice in high-risk foot services
198/16	The incidence of Hepatitis-C among HIV infected men who have sex with men (MSM)
200/16	A Randomized Pilot Clinical Trial for Early Coronary Angiography Versus No Early Coronary Angiography for Post-Cardiac ARrest Patient with No ST Segment Elevation on their ECG (PEARL)
202/16	Short Period Incidence study of Severe Acute Respiratory Infection (SPRINT-SARI)
208/16	Influence of HLA match on Long-term Graft Function in Cardiac Transplant Recipients
213/16	Clinical, molecular and psychosocial profiling of long-term survivors of glioblastoma multiforme

## AlfredHealth

214/16	Single centre review of outcomes in patients with acute myeloid leukaemia with myelodysplasia-related changes
221/16	Subclinical Right Ventricular dysfunction
223/16	Joint replacement following proximal femur fracture
224/16	Review of non-acute bed-based services of MI Fellowship and Alfred Psychiatry
225/15	Salvage rates for skin versus muscle free tissue transfer flaps
225/16	Evaluation of a checklist to improve the interpretation of computed tomography of the brain in trauma.
232/15	A 7-year review of air ambulance transfers and pre-hospital management of burn inhalational injury at the Victorian adult burn service
233/16	Direct Costs and Epidemiology of Acute Hand and Wrist Injuries: A Single-centre Retrospective Study
234/16	Evaluation of Prognostic Factors for Survival in Patients With HCC Undergoing Treatment With Transarterial Chemoembolisation (TACE)
235/16	Service evaluation of therapeutic drug monitoring of infliximad and adalimumab in patients with inflammatory bowel disease
237/16	Examining the expression of INPP4B (Type II 4-phosphatase), PIPP, P-Rex1/2 and MTMR4 in human breast cancer
246/16	A single centre audit of inhibitor screening and Bethesda assays
253/15	Persistent Critical Illness in ANZ National databases
262/16	Heart Failure Management in the Emergency Department
264/16	HIV CSF escape: A retrospective review at the Alfred Hospital

## AlfredHealth

272/16	Reduction of oxygen after cardiac arrest (EXACT): The EXACT study
277/16	Feet fractures in lung transplantation recipients
279/16	Monitoring Disability in Older People Having Surgery: Establishment of a Perioperative Registry
280/07	A Comparison of Mindfulness-Based Cognitive Therapy with Usual Treatment plus Active Symptom Monitoring for Preventing Relapse in People Who Have Had Recurrent Depression
284/15	Investigate the role for platelets in gut ischemia induced lung injury
290/16	Correlation between exercise haemodynamics and cardiac fibrosis in patients with ventricular assist devices
291/16	Lung Cancer Clinical Quality Registry
292/15	The validity of the Throckmorton sign in pelvic fractures
300/16	Nursing intervention prevents development of constipation
303/16	Distal placement of femoral intramedullary nails of differing curvature
316/15	The outcomes of novel therapies for autoimmune hepatitis in patients with a suboptimal response to standard therapy
320/15	Is there an increased incidence of Complicated Peptic Ulcer Disease in the Alfred Health Network when compared to Australian Data?
326/15	Videoscope Guided Intercostal Catheter Insertion for Trauma
327/15	Contribution to the International Society for Heart and Lung Transplantation (ISHLT) Mechanically Assisted Circulatory Support (IMACS) Registry
344/15	The PREDICT Study: Predicting Treatment Response in Inflammatory Bowel Disease

## AlfredHealth

345/15	Prevalence and outcomes of desaturation on a 6-minute walk test
346/15	Scaphoid plate fixations: Comparative analysis of outcomes with new scaphoid fixation technique
349/15	Lung infarction after blunt chest trauma
361/15	Mortality, disability and life expectancy of people with diabetes: a national Australian registry-based cohort study
362/15	Necrotising Soft Tissue Infections: Clinical Presentation – Prospective Review of 21 consecutive cases
375/10	Longitudinal assessment of habitual physical activity in adults with Cystic Fibrosis
375/15	Antiretroviral treatment uptake and the HIV Treatment Cascade: improved individual and population health outcomes through a better understanding of antiretroviral uptake.
378/15	Review of Sepsis Management
391/15	DRESS: Dressing Requirement Estimation in Surge Situations
409/15	The EASi study _Electronic Adverse event Surveillance Intervention in acute general medical patients
410/15	Evaluation of Structured Interdisciplinary Bedside Rounds (SIBR) in an acute general medical unit
412/15	Outcomes of Fascicular Nerve Transfers for the Restoration of Elbow Flexion in Brachial Plexus
422/15	Impact of alcohol use on non-motorised road users in road traffic crashes
435/16	Evaluation of Pharmacist Charting at Admission to Residential Care
439/13	Secondary falls prevention in older people presenting to the emergency department with a fall: A multi-centre randomised controlled trial of efficacy, cost-effectiveness and acceptability of the RESPOND program

## AlfredHealth

443/15	Home management of malaria in Papua New Guinea
445/15	Determining the DNA fragmentation from formalin fixed paraffin embedded tissue at Alfred Health
450/15	Quantifying the risk of unplanned transfer from subacute to acute care: using a horizon scan and prospective nested cohort study to develop a predictive model
456/15	Elucidating mitochondrial defects in human diabetic nephropathy
457/15	GENTamicin in the eLdErly (GENTLE) Study: Retrospective Cohort Study to evaluate the clinical and microbiological appropriateness of and unwarranted adverse effects of and unwarranted adverse effects from gentamicin prescription in the elderly patients
460/15	Risk factors and management of Spinal Epidural Abscess and Spondylodiscitis
471/15	Lightly pigmented melanomas – a diagnostic aid
478/15	Predicting patient survival post cardiac arrest
480/15	Hba1c as a predictor of mortality and morbidity in lower limb amputees
492/15	A retrospective analysis to evaluate the effect of exogenous melatonin on the management of delirium
495/15	A pilot study of the Mindful Self-Compassion program for people who have been diagnosed with cancer or a haematological malignancy
501/15	Validation of asparaginase assay using normal subjects and treated patients
503/15	Prognostic implications of delay from diagnosis to start of radiotherapy
510/15	Does increased intensity of occupational therapy improve occupational performance and hand function in people hospitalized with acute burns?
513/15	Improving adherence to clinical guidelines for the management of patients with high INR

## AlfredHealth

514/15	Does the age of Cystic fibrosis lung transplant recipients affect outcome?
516/15	Topic Modelling For Profiling Elderly Inpatients Based on Fall Risk Factors
523/15	Utility of eFAST as a screening tool for the assessment of trauma patients with blunt and penetrating cardiac injury
524/15	Understanding viral kinetics, resistance and end-organ disease with cytomegalovirus
527/15	Real world evaluation of Viekira Pak in HCV genotype 1 targeting advanced liver disease (REVITAL)
534/15	A retrospective study of functional outcomes and disability after rehabilitation of non-traumatic spinal cord hemorrhage or inflammation
543/15	OUTCOME-ABI Study- An evaluation of outcomes of a specialist ABI unit and its impact on long- term quality of life and community participation.
550/15	Audit of a clinical protocol for the provision of HIV pre-exposure prophylaxis in an Australian general practice.
551/15	The lived experience of a significant other of a person with a severe ABI, in the early stages of admission to sub-acute rehabilitation and prior to discharge
552/15	High Dependence Unit Project
561/15	Incidence, patterns, severity and risk factors for drug induced liver injury in patients with severe cutaneous adverse drug reactions (SCAR-DILI)
562/15	National Antimicrobial Prescribing Survey (NAPS)
566/15	Long term clinical outcome of acute spinal cord injury: Time series analysis using retrospective administrative and clinical data
571/15	Raised Troponin levels in acute burns patients
573/15	Epidemiology & analgesia in renal colic presenting to the Emergency Department

## AlfredHealth

578/15	Audit of patients with the discharged diagnosis of hyperparathyroidism over the last 4 years
584/15	Comparison of the diagnostic performance of combined $\kappa$ and $\lambda$ light chain immunofixation (CLIF) to serum protein electrophoresis on a Sebia Hydrasys 15 HR system
600/15	The safety of long term antiretroviral therapy: incidence and predictors of severe renal disease in patients treated living with HIV infection.
603/15	Association of ligamentous/soft tissue C-spine injury with facial/skull fracture in multi-trauma patient
617/15	Pre-lung transplant body composition and association with post transplant outcomes
632/15	The utility of the mid arm point for identifying a safe chest tube insertion site
633/15	How consistently are the Ottawa Ankle Rules applied in a major metropolitan emergency department? – A retrospective review
638/15	Enteral nutrition feeding practice by Intensive Care nurses
639/15	Burn Injuries and Hypothermia: Factors contributing to hypothermia in the first 24 hours of admission to intensive care unit
641/15	Association of ligamentous/soft tissue C-spine injury with facial/skull fracture in multi-trauma patient
644/15	Lower limb trauma experience: distal limb free flap survival in the setting of proximal limb injury
645/15	Determining the feasibility of synchrotron radiotherapy for localised cancer
