## Radiology Research October 2018 Ordering radiological services for clinical trials Helen Kavnoudias

To date the Radiology Department has been providing Request Form Templates (RFTs) for all trial imaging and procedure services. The RFTs contain important trial information and serve a very important function for researchers, for efficient Radiology Department service delivery and for all our patients. The RFTs could be printed, completed and faxed or completed electronically and emailed.

With the introduction of eTQC we are being encouraged to move away from paper based requests to e-Ordering on Cerner. When e-Ordering it is essential that the important trial information that was included on the RFTs is entered into each e-Order.

The information has to be entered in the 'Clinical reason for exam' field in a 'string text' format without notations, symbols or carriage returns. To facilitate, the Radiology Department will provide a Word Document from which the information can be copied into the e-Order. Below is an example of a string e-order request.

Billing No 67518 Code 63001 MRI Brain for GBM patients Scanner ED3T Recist Report Med Onc Dr David Jones Coordinator Mary Smith x60994 Anon imagesYes Pt ID **300-001** StudyTimepoint **Baseline** 

To further facilitate the process please note that Cerner has a feature that will minimise the copying and pasting – **the Favourites button**. When you create an e-Order for your first patient and save to Favourites you can then use that request for your future patients as it keeps the information in the 'Clinical Reason for Exam' field. Because of the way Cerner is structured, if you are e-Ordering for inpatients and out-patients for a particular trial you will have to create Favourites under both patient categories.

Below are schematic instructions on e-Ordering radiology services for clinical trials.

- 1. Have your e-order Word document file open.
- 2. Open your patients Medical Record
- 3. Select an Alfred Encounter (ie not Caulfield) then close/move the Encounter screen

P Encounter Selection						
Selected	Facility	Visit Type	Service	Location	OL 4	
	The Alfred	Pathology Referral		Alf Priv Cons		
	The Alfred	Paris	ORTH	ORTHO 1		
	The Alfred	Paris	ORTH	ORTHO 101		
	The Alfred	Paris	ORTH	ORTHO 1		
	The Alfred	Outpatient	AOrthopaedic	ORTHO 1	02	
	The Alfred	Outpatient	AOrthopaedic	ORTHO 1	04	
	The Alfred	Inpatient	ADiagnostic Radiology	Medical Day Unit 01		
	The Alfred	Outpatient	ATrauma Service	Frac/Trauma Clinic	21	
	The Alfred	Paris	Radiotherapy	Radiology 01		
	The Alfred	Paris	IMAG	Radiology		
	The Alfred	Outpatient	ATrauma Service	Frac/Trauma Clinic	14	
	The Alfred	Paris	TRMA	Trauma Tue		
	The Alfred	Outpatient	AUpper Gastro & GS	UGIS	19	
	The Alfred	Inpatient	AUpper Gastro & GS	Ward 6 East 01 06		

4. On the Cerner Menu Bar go to Orders & Referrals and click + Add.
